1. WHO WE ARE

American Business Council (ABC or “the Council”) is the voice of American Business in Nigeria. It has become an effective advocacy platform with the Nigerian public and private sectors. It was incorporated in 2007 as a non-profit entity to be the key vehicle for promoting trade and investment between Nigeria and the United States.

A General Meeting of US Companies doing business in Nigeria in May 2007, unanimously endorsed the need for ABC to operate as a “think tank” with its focus on policy reforms for improving the Nigerian business environment. ABC aims to bring the perspectives and voices of Nigerian-based leaders of American businesses combined with the US Government support, to bear on selected issues and reform initiatives that show potential for win-win results to support Nigeria’s quest for stable economic development.

ABC is an affiliate of the U.S. Chamber of Commerce, the world’s largest business organization and business-oriented lobbying group representing companies of all sizes across every sector of the economy. For more than 100 years, the US Chamber has advocated for pro-business policies that help businesses create jobs and grow their domestic economy. ABC members and partners are leading industry associations and large corporations across various sectors of the Nigerian economy. They count on ABC to be their voice in Abuja and across Nigeria.

ABC has a good understanding of the policy and legislative processes in Nigeria, which makes the organization an effective advocacy platform. ABC also functions as a convening platform, reservoir of data and insights. As a lobby vehicle, it collaborates with partners in government and policy shaping. Equally important is carrying out projects and activities on behalf of members by following due process and adhering to Foreign Corrupt Practices Act. We build and implement a roadmap to guide our member from the introduction of a Bill to its enactment.

We work very closely with the US Embassy in Nigeria, Government ministries, departments, and agencies (MDAs), including Nigerian Investment and Promotion Council, Nigerian Export Promotion Council, Central Bank of Nigeria, National Agency for Food and Drug Administration and Control, Ministry of Communication and Digital Economy, State Governments and the National Assembly. We also have good working partnerships with similar stakeholders, such as The Nigerian Economic Summit Group, Nigerian American Chamber of Commerce, and Lagos Business School.

Key Successes

- Commercial Investment Dialogue (CID): The U.S.-Nigeria Commercial and Investment Dialogue (CID) is a U.S. Department of Commerce and Nigeria's Ministry of Industry, Trade and Investment-led mechanism designed to promote increased, diverse and sustained Trade and Investments between the United States and Nigeria. The conversations are held between both Governments as well as Governments to the private sector. The Council is a critical stakeholder of the CID.

- The Council working with Nina Jojer developed an app – Legislative Tracker to track Bills that will impact members.
- The Council has also engaged critical policy stakeholders to resolve critical issues for members, such as NAFDAC, NCS, FMITI, NIPC, NITDA, Nigerian Immigration Service and the National Assembly.
